

## Our Vision

We aim to foster happy, healthy, self-confident, independent children and keep children and families at the heart of all we do. We believe that every child's rights, safety and well-being are of paramount importance. We also believe that every child's individual personality, skills and interests should be nurtured.

To achieve our vision we:

- *Provide* high quality day care in a safe, caring, friendly and stimulating physical and emotional environment for children to enjoy, to learn, to play, and to develop in.
- *Promote* self-care and healthy lifestyles with nutritious snacks, meals and regular outdoor opportunities.
- *Endeavour* to work closely with parents, professionals, schools and other organisations.
- *Recognise* the importance and contribution of all the members of our nursery team and ensure that they have relevant support, training and personal development opportunities to work appropriately with each child.

By keeping all these elements in focus we aim to maintain our leading reputation in the early years field in the Scarborough area.
